

**3-Speed, Ceiling-mounted, Ozone-Free UV,  
Commercial Healthcare Air Cleaning System**

**F111U Series 3 is a Cost Effective, 1200 CFM, High Efficiency, Quieter, Ozone-Free UV system to inactivate / kill microbial contaminants for Critical, Healthcare and other desired applications.**

- For Healthcare facilities the F111U Media Air Cleaner is equipped with a 99.97% HEPA filter (optional 95% DOP and 95% ASHRAE filters available for non-healthcare applications) along with 2 ozone-free, germicidal UV bulbs to inactivate / kill a wide range of microbial contaminants. The HEPA filter traps up to 99.97% of dust, soot, mold, spores, pollen, and other particulates. The UV kills more than 80% of *Serratia marcescens* bacteria in the air that passes through the filter every minute. Combined, the two technologies can achieve a 99.99% capture / inactivation rate effectiveness.
- The solid state, Three-Speed Remote Switch allows control of air flow and sound level. It can be mounted adjacent to the unit on the ceiling or on the wall for remote operation.

- The F111U sealed and interlocked design prevents accidental exposure to ultraviolet light. In addition, the innovative design of the ozone-free UV module prevents the UV lamp from lighting unless the base is installed correctly. The F111U fits neatly in a 2' x 4' ceiling tile, hiding the cabinet over the ceiling. To match your décor, the grill is available in White or Black color. The grill swings down easily for filter replacement and is removable for easy cleaning.
- Efficient Coanda airflow ensures the purified air is re-circulated evenly in the room, eliminating stuffy air pockets. Coincidentally, it also reduces cycling of the HVAC system by re-circulating conditioned air.

**Applications**

You will find the F111U deployed in spaces where microbial contaminants and particles are typically high due to normal business activities.

- Critical and Healthcare facilities
- Dental Offices & Labs
- Clinics & Hospital Waiting Rooms
- Veterinary Clinics, Kennels
- Senior Care Centers
- Nursing Homes
- Offices & Conference Rooms
- Employee Lounges
- Pharmacies
- Funeral Homes
- Bingo Halls & Fraternal Clubs
- Print Shops
- Computer Rooms
- Casinos
- Restaurants
- Gyms and Locker Rooms
- Residences & Homes
- Energy Savings Applications
- Restrooms and more ...
